1. Purpose

The purpose of this SOC 2 Readiness Assessment is to evaluate NovaPay Fintech Ltd's current security controls against the Trust Services Criteria and determine its preparedness for a SOC 2 audit.

This assessment aims to identify control gaps, assess risks and provide actionable recommendations to strengthen the organization's control environment.

2. Scope

This assessment covers systems, processes and controls related to the Trust Services Criteria with a primary focus on the Security principle, including access control, system monitoring, data protection and incident response.

3. Objectives

- Evaluate existing controls against SOC 2 requirements
- Identify gaps in control implementation
- Assess risks associated with control deficiencies
- Provide recommendations for remediation

4. Approach

The SOC 2 readiness assessment will be conducted using a structured methodology that includes:

- Review of existing policies and procedures
- Evaluation of implemented controls
- Gap analysis against Trust Services Criteria
- Risk-based assessment of control deficiencies
